

Meet the Flinders Fertility Clinicians

Prof Neil Johnson

Medical Director and Fertility Specialist – MD, MRCGP, FRCOG, FRANZCOG, CREI

Professor Neil Johnson CREI is the Medical Director of Flinders Fertility. He is also a Professor of Obstetrics and Gynaecology at Flinders University and has honorary academic appointments at the University of Auckland, NZ, and the University of Adelaide. His research interests include the fertility aspects of endometriosis (for which he has pioneered the use of Lipiodol in A/NZ), and polycystic ovarian syndrome. Professor Johnson is seeing private patients at Flinders Fertility who have a history of complex or unexplained infertility and a confirmed diagnosis of endometriosis.

• Endometriosis • Multi-factorial infertility • Recurrent implantation failure

Dr Linda Roach

Clinical Director and Fertility Specialist – BMBS, FRANZCOG, MRMed

Dr Linda Roach is a Specialist Obstetrician and Gynaecologist, who joined Flinders Fertility in 2010. She holds a postgraduate Masters of Reproductive Medicine, from the University of NSW.

Dr Roach is experienced in managing all aspects of infertility and optimising wellbeing for a healthy pregnancy. She has a special interest in donor conception, preconception counselling, and optimising health and well-being for a healthy pregnancy and baby.

Dr Roach is head of our donor team and is a strong supporter of LGBTQI+ families and she is committed to providing an affirming experience for her patients.

• General infertility • Donor conception • LGBTQI+ patients 🏳️‍🌈

Associate Professor Vasant Shenoy

Fertility Specialist, Endocrinologist – MBBS, MD, FRACP

Associate Professor Vasant Shenoy is an endocrinologist with special interests in male-factor infertility, preconception health and treating fertility-related endocrine issues such as PCOS, premature ovarian failure, diabetes, and thyroid. Vasant the joint-Director of Physician Education at the Townsville University Hospital, and Associate Professor at James Cook University. He offers Telehealth and face to face consultations at Flinders Fertility and is suitable for patients with known endocrine-related conditions.
